

TRAVEL TECH • ZAMBIA

Trippler

Plan It. Save It. Experience It.

A budget-first trip planning platform that shows travelers the true cost of their journey — before they leave home.

INVESTOR PITCH DECK

THE PROBLEM

Travel planning breaks down long before the trip begins

Destination-first thinking

Platforms ask “where do you want to stay?” before a traveler even knows what they can afford.

Hidden total costs

Fuel, food, and incidentals are guesswork — the real cost of a trip only becomes clear on the road.

Fragmented planning

Accommodation, transport, food, and budgeting live in separate apps, calls, and spreadsheets.

No path to affordability

If a trip is out of reach today, there's no simple way to plan and save toward it for tomorrow.

THE SOLUTION

Tripper flips the question travelers are asked

Most travel platforms start with **accommodation**. Tripper starts with **affordability**

Tell Tripper your destination, travel party, trip length, and budget — it builds the entire experience around what you can comfortably afford.

- One platform for accommodation, travel costs, food budgeting, payments, and savings
- Real Zambian Kwacha pricing — fuel, lodging, and meals, not just room rates
- Pay now, or save gradually toward a trip until it's fully funded

THE OLD WAY

“Where would you like to stay?”

Find a room → hope the rest of the trip fits your wallet

VS

THE TRIPPER WAY

“What is your budget?”

Tripper builds the stay, the route, the food budget, and a savings plan around that number

HOW IT WORKS

Four inputs in. A complete trip plan out.

YOU TELL TRIPPER

Destination

Where you're headed in Zambia

Number of travelers

Solo, family, or group

Number of days

Length of the trip

Budget

What you can spend, total

TRIPPER BUILDS

Travel distance

Fuel cost estimate

Accommodation match

Food & drink budget

Total trip cost

Pay now or savings plan

PRODUCT SHOWCASE

Every option shows the full cost of the trip

Results appear as interactive cards — the way ride options appear in Yango — so travelers compare complete trips, not just rooms.

FAMILY BUDGET TRIP

Lakeside Resort

	Distance	320 km
	Fuel estimate	K850
	Accommodation	K2,400
	Food & drinks	K1,200

TOTAL TRIP COST

K4,450

Save K371 / month for 12 months

Pay directly via Mobile Money or Bank — or start saving today

PREMIUM GETAWAY

Safari Luxury Lodge

	Distance	320 km
	Fuel estimate	K850
	Accommodation	K6,500
	Food & drinks	K2,100

TOTAL TRIP COST

K9,450

Save K788 / month for 12 months

Pay directly via Mobile Money or Bank — or start saving today

Three core journeys, one seamless platform

Find Room

Direct booking for travelers who already know where they're going.

- Enter location, group size, budget range & dates
- Tripper searches available rooms
- Pay to confirm — lodge gets instant confirmation
- Receipt generated, hotel contacts the customer

Planner

The signature experience — a full trip built around a budget.

- Enter location, group size, budget, dates & transport
- Optionally include food services
- Planner generates a complete trip budget
- Customize inclusions, then confirm

Save to Trip

Turns an aspirational trip into an achievable plan.

- Build a plan using Planner
- Start saving toward it on a flexible schedule
- Booking is processed once fully funded
- Unlock special discounts along the way

Built for travelers, accommodation partners, and admins

Traveler App

Every person using Tripper to plan, pay, and save.

- Account management
- View booked rooms & transaction history
- Push notifications on bookings, payments & savings progress

Accommodation Dashboard

Lodges, hotels & guesthouses managing their presence on Tripper.

- Add rooms, prices & amenities
- Confirm bookings via portal, email or SMS/WhatsApp
- Add menus & manage bookings
- Track amounts owed and received
- Direct customer communication

Admin Dashboard

Tripper's control center for operations and growth.

- View & manage all accommodations and users
- Approve payments & confirm bookings
- Process owed payments & view all transactions
- Generate reports, manage cashbacks & refunds

MARKET OPPORTUNITY

Zambia's tourism boom is outpacing the tools to plan it

International Tourist Arrivals (millions)

+70%

Growth in international arrivals, 2023 → 2024 — a record 2.2 million visitors

9.9%

Of Zambia's GDP now comes from tourism, up from 2.4% in 2012

US\$209M

Projected Travel & Tourism market by 2029, up from US\$133.7M in 2024

64%

Of travel revenue projected to move online by 2029

613,000

Tourism jobs projected by 2034, up from 473,000 today

BUSINESS MODEL

Multiple revenue streams from a single trip

Booking commission

A commission on every Find Room and Planner booking confirmed through accommodation partners.

Savings plan partnerships

Revenue share with mobile money & banking partners on funds held and moved through Save to Trip.

Premium placements

Featured listings and promoted accommodation cards for lodges, hotels & resorts.

Payment processing

A small fee on mobile money and bank transactions processed through the platform.

Insights & reporting

Anonymized travel demand and pricing insights licensed to tourism boards & operators.

Every trip planned on Tripper touches accommodation, payments, and savings — compounding revenue opportunities per user, per trip.

Built differently — and built for Zambia

	Traditional Travel Apps	Tripper
Starting question	“Where do you want to stay?”	“What is your budget?”
What you see	A room rate	Travel, stay, food & total trip cost
Payment options	Pay in full, now	Pay now, or save gradually to a savings goal
Pricing context	Generic global pricing	Local Zambian Kwacha, real fuel & food costs
Accommodation network	Limited local coverage	Direct partnerships with Zambian lodges & hotels
Who it serves	Travelers who are already booking	Travelers planning, saving, and dreaming ahead

ROADMAP

From Copperbelt MVP to a national travel platform

1

PHASE 1 · 0–3 MONTHS

Launch the MVP

- Find Room & Planner engine live
- Onboard lodges in Lusaka, Livingstone & the Copperbelt
- Mobile money payment integration

2

PHASE 2 · 3–9 MONTHS

Save to Trip & Partner Dashboard

- Launch Save to Trip savings plans
- Roll out Accommodation Management Dashboard
- Expand to national parks & tourist routes

3

PHASE 3 · 9–18 MONTHS

Scale the network

- Admin Dashboard with full reporting
- Nationwide accommodation network
- Food marketplace & transport partnerships

4

PHASE 4 · 18–24 MONTHS

Regional expansion

- Expand into SADC travel corridors
- B2B data products for tourism boards
- Loyalty & discount partner network

THE ASK

Seed funding to take Tripper from MVP to market

SEED ROUND

ZMW K50,000

To build out the full platform, onboard accommodation partners across Zambia's key tourism corridors, and reach the first wave of travelers.

18–24 month runway to reach Phase 3 of the roadmap

Use of Funds

OUR VISION

**Travel doesn't begin at the destination.
It begins the moment someone starts planning.**

Trippler helps people discover destinations, understand true costs, save with confidence, and enjoy experiences they can afford — without financial stress.

Trippler — Your trip, fully planned before you leave home.
